GO 'GREIGE'

The year's most sought after neutral isn't going out of style any time soon. Its beauty is in its versatility. The addition of gray to beige creates a richer hue that can work in a cool or warm color scheme, meaning you can change it up without throwing it out.

DEFINE YOUR SPACE

Incorporating multiple styles is a great way to segment your outdoor living areas into rooms without roofs. Adding a sleek border with a more natural stone, like in the image at right, creates the cozy feeling of a hearth rug in front of the fireplace.

UPGRADE YOUR INSTALLATION WITH STONEDEKS SYSTEM™

This revolutionary panel system allows for the creation of ground-level or elevated stone decks on wood or metal joists. Use StoneDecks System™ with Belgard® pavers and slabs or Mirage® porcelain pavers to upgrade porches, patios, pool decks and more.

BUILD COLUMNS IN A SNAP

Tandem® Column Kit is an innovative, versatile system that can be used to create attractive, easy-to-install and durable columns. Great for use in residential and light commercial hardscape projects.

TANDEM® MODULAR GRID GIVES YOU ENDLESS POSSIBILITIES

Construct virtually any design up to 7' tall by simply attaching the grids to a wooden structure and connecting the veneers. Build an outdoor kitchen, skirt a deck, run electrical for lighting/sound, construct seat walls... the possibilities are endless.

WALL IT OFF WITH U START

One of Belgard's latest innovations, U Start Base Block® - is a universal base course for landscaping walls that promotes cost savings and installation time efficiency.

INSTALLATION INNOVATIONS

PRODUCTS THAT MAKE INSTALLATION EASIER

Belgard® offers several products designed to make installation easier and more efficient. Why spend more time and money when you don't have to?

PICTURED: ASHLAR TANDEM™ WALL

FREESTANDING OR RETAINING

Knowing the difference between retaining and freestanding walls can have a positive impact on your project and lead to a more enjoyable outdoor space.

Freestanding walls allow you to divide your outdoor living space into different areas. They provide visual interest and can make even the largest yard feel more intimate. Freestanding walls easily incorporate with other features like fireplaces or outdoor kitchens to provide a cohesive look.

Retaining walls can have multiple purposes. Some help to increase usable space, whether that be a flower bed or added yard space, while other retaining walls help to prevent erosion. Either application is made possible by a wall system that holds back soil and properly manages drainage. Larger walls also utilize soil reinforcement for added strength and long-term stability.

ACCESSORIES

The divine is in the details. Belgard offers caps, columns and other accessories to complement any hardscape design. Mix textures to add a modern look to a rough-hewn wall-face. Include a cap in a complementing color to add visual interest. The possibilities are endless!

Consult a Belgard Certified contractor for information on all of our wall products and to receive project design assistance through Belgard Design Studio.

BEAUTY & STRENGTH IN A LOW PROFILE

BENEFITS OF PORCELAIN

- Incredibly high breakage loads, up to 2,000 pounds
- With a tight surface texture, these pavers clean quickly with normal household cleaners.
- Unaffected by alkalis, acids, chemical agents, salt and other deicing materials.
- High density and ultra-low absorption rate creates a tight paver surface, it fends off surface mold, moss, dirt and other types of stains.
- Structured top textures formed on the surface create non-slip surfaces.
- 100% frost-free and its properties remain unaffected by Freeze-Thaw

PAVER CARE

PROTECT YOUR INVESTMENT

Belgard Products are designed to last for generations. Many homeowners choose to further protect and beautify their investment by applying a protective sealer. Adding a sealer can enhance the beauty of a project by highlighting the color and texture of the surface. It will also offer protection from stains like oil, grease or other accidental leaks.

Techniseal® Protector for Concrete Pavers (Top-Bottom): Natural Look Matte Finish, Clear Look Semi-Gloss Finish, Color Boost Matte Finish, Wet Look Gloss Finish

THE ULTIMATE PROTECTION SYSTEM

Techniseal's 3-step treatment system guarantees the best results. Remove stains with a specially formulated Stain Remover, prepare the surface with Paver Prep, then apply a Protector that delivers the look you want.

SELECTING A CONTRACTOR

A hardscape project is an important investment in your home and selecting the right contractor is a critical decision. Don't be afraid to ask a lot of questions. It's important that you get to know your contractor so that you can work together as a team to create your ideal outdoor living space.

WHAT TO ASK

Are you certified?

Inquire about specialized certifications and training from organizations like the Interlocking Concrete Paver Institute® (ICPI).

All Belgard® Contractors are required to have at least one team member who is ICPI certified and must meet annual requirements to maintain the company's status.

Are you insured?

It's important to hire a contractor who can provide proof of insurance and is able to guarantee their work for a period of at least three years after the installation.

Can I get a reference?

Ask for customer references and to see photos of past projects, both for design ideas and to get a sense of the contractor's level of creativity, expertise and work ethic. Ask for an address or two and check out the workmanship up close, with the homeowner's permission of course.

What isn't covered in your estimate?

Determine upfront which aspects of the project the contractor can handle. Will their team manage landscaping, plumbing, irrigation and lighting or will you be expected to handle this separately?

What's the schedule?

Be sure to get a complete understanding of payment terms, estimated start date and turn-around time.

YOUR PROJECT STARTS HERE

Ready to take the next step?
Belgard provides tools to easily
kick off your next project

BELGARD® WILL IMPROVE THE BEAUTY AND VALUE OF YOUR HOME.

But like any construction project, it's necessary to have as much information as possible before you begin the process. With that in mind, we created a project planning guide dedicated to helping you make the best decisions and understand what to expect before you get started with your project.

GET YOUR PROJECT PLANNING GUIDE
AT [BELGARD.COM/PLANNER](https://www.belgard.com/planner)

PROJECT CONSIDERATIONS

- The general project should be conducted in phases, which include: demolition, site preparation, base material installation, bedding sand installation, hardscape installation, polymeric sand installation, additional paver cleaning and sealing.
- The timeline for your hardscaping project depends on several factors including the **size and scale** of the project, **permits needed** (which vary by municipality), and the acceptance of any community organizations, such as homeowner associations or architectural review boards.
- All outdoor projects are **subject to weather conditions** so there could always be delays.
- Spring and summer are the busiest periods for contractors, so **start your planning during the winter months** or consider scheduling your project in slower periods.
- **Confirm all the work you'd like done is contracted and scheduled up front.** Adding additional features will delay the schedule and add to the total cost.
- Check with your contractor to ensure that all items being installed are readily available or match your timeline.
- Be sure to **discuss with your neighbors** any construction phases that might be disruptive so that you can communicate that information to them as needed.
- If you have a large project and would like to phase out construction over time, be sure to **plan the entire design** before you get started so that you can plan for any electrical, plumbing, drainage or landscaping needs.
- Consider building your backyard before any projects in the front yard to avoid damaging your front yard.
- When your project is finished, **walk through it with your contractor** to ensure the quality of the install, and **ensure you have receipts for materials / labor** and have registered your warranty.
- Always take into consideration the next step of the project: What does the landscaping look like? Do you need to schedule the contractor to seal the pavers? Plan ahead to make sure you finalize your project and can enjoy it for years to come.

TIMELINE

Planning the project

PHASE 1: 4-6 weeks

- Consider how you will use the space and your budget
- Examine styles and colors that work with your house or landscape
- Get inspiration online
- Research approval requirements for your municipality or HOA
- Set a budget

Installation

PHASE 3: 2-12 weeks

- Time of the installation will vary depending on the scope of the project
- Check with the contractor to ensure that the materials ordered have arrived and are accurate
- Connect with your contractor throughout the project to ensure it is progressing as planned

MAKE YOUR DREAMS A REALITY

with Belgard Preferred Payment

With the Belgard® Preferred Payment program, you can complete your outdoor project in just a few weeks, instead of phasing it out over several months or years.

Available only through **Belgard Contractors or Dealers**, Preferred Payment offers same-as-cash financing that allows you to start your project immediately.

There are often construction economies that can be achieved by doing the entire project at once, **which could save you both money and time.**

Plus, you get to start enjoying your dream outdoor living space much sooner!
